### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Scott on February 21, 2006.

The application has been amended as follows: The dependency of claim 12 has been changed back to depend from claim 6, as it originally was. Claim 13 has been changed to depend from claim 1, instead of claim 6.

### REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance: The prior art fails to fairly teach, disclose or fairly suggest a dimensionally stable laminate comprising a first and second polymer layer on a removably attached web carrier formed by continuous roll forming wherein an embossed texture extends through the web carrier and into the first polymer layer (as shown in applicant's figure 5) and wherein the first and second polymer films are dimensionally stable after removal of the web carrier in combination with all of the other limitations in claims 1, 27, 37, 52 and 63. In addition to the above reasons, the examiner is also relying on the Applicant's arguments on pages 12-14 of the response filed November 29, 2005.
